### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance

The prior art of records fails to teach or suggest singularly or in combination, the following:

A communication/or control node system, which is for Ethernet-PON (Passive Optical Network), the communication node system comprising (Inter alias):

an LLID register for storing an LLID (Logical Link Identification) being an allocated identifier;

a preamble generator for generating a PON preamble using the LLID; a CRC (Cyclic Redundancy Check) generator for generating a CRC for the preamble;

a transmission connector for combining transport data with the CRC-including preamble to generate a transport frame, and forwarding the transport frame to the network;

a reception connector for receiving a frame from the network and dividing the received frame into a preamble and received data;

a filter for extracting an LLID from the preamble, comparing the extracted LLID with the LLID stored in the register, and selectively filtering the extracted LLID; and a received frame generator for, based on the filtering result from the filter, discarding the received data, or combining the received data with the preamble to generate a received frame, as indicated in respective independent claims 1, 9 and 15.

**Conclusion**

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
